INTRODUCTION

Molex’s newest microSD card connectors include anti-card-sticking features to help ensure smooth and consistent card ejection.

Our new 502570 version replaces our previous 502037 series, and includes a modification to the shell design to help prevent card sticking. Our 502774 series replaces our 502107 series, and includes modifications to both the housing and shell that help provide smooth card eject speed without sticking.

All other dimensions and features of these connectors, including anti card fly-out features, remain the same as the initial products, while providing customers greater assurance of smooth card ejection.

Specifications:
- Current: 0.5A
- Voltage: 10V
- Contact Plating: Gold
- Contact Resistance: 100 milliohms max.
- Insulation Resistance: 1000 megohms min.
- Dielectric Strength: 500V AC
- Flammability: UL 94V-0
