The Molex Pneumatic Stripping Machine delivers a tabletop solution for stripping large-gauge wires, 9 to 2/0 AWG (6.63 to 67.40mm²), reducing crimp cycle times with semi-automation.

Features and Advantages

- **Transparent safety guard**
  Provides operator protection

- **Centering guide**
  Helps operator correctly position the wire for stripping

- **Operated with a foot pedal**
  Reduces operator fatigue and error

- **Faster stripping compared to manual tool**
  Speeds up manufacturing process

- **Strips large-gauge wires**
  9 to 2/0 AWG (4.00 to 15.00mm or 6.00 to 70mm²)

Markets and Applications

- Automotive
- Industrial
- Commercial
- Contract Manufacturers
- Design / Engineering
- Facilities
- Commercial Aviation
- Marine
Specifications

**MECHANICAL**
Suitable Inner Cable Diameters:
0.15 to 0.60” (4.00 to 15.00mm)

Strip length
0.2 to 2.0” (5.08 to 50.80mm)

Maximum Insulation
O/D 0.63” (16.00mm)

Cross Section
2.0” (50.80mm)

**PHYSICAL**
Length: 9.84” (250.00mm)
Width: 9.05” (230.00mm)
Height: 7.48” (190.00mm)

Approximate Weight: 24 lb (11kg)
Air Pressure: 90 psi (6 bar)
